

## **Camp/Retreat Scholarship Form**

We believe that ministry trips and events can be powerful and spiritually growing for students. While we believe these to be important for students to attend we also realize that there are costs and sacrifices that one has to make in order to reap the benefits of such a trip or event.

We want you to know the costs up front, so you can plan for the amount you think you are able to afford. We know families come in all shapes and sizes and financial abilities, and we don't want any student to miss this great opportunity! For that reason, we have committed to see that every student can go, but allow families to confidentially name the level of support they can offer.
